REFERENCE LETTER FOR ENVIRONMENT AND LANGUAGE EDUCATION TRUST (ELET)

This letter serves to confirm that DoE, Phumelela Circuit Management Centre, through its respective Circuit Managers, has established an excellent partnership with the Environment and Language Trust (ELET). This partnership has enabled our Circuit Management Centre in establishing a culture of reading in schools that were assisted by ELET. We see this as a positive means of empowering schools and improving the culture of reading in Umlazi Township. This is in line with the Minister of Education's national Read to Lead campaign.

The Phumelela CMC serves schools in disadvantaged areas. Therefore, the schools that have been given mobile libraries have demonstrated an improvement in English as it is a language of teaching and learning. Also, the mobile libraries have made a significant difference to the general ethos of the schools that have received this valuable resource.

Furthermore, the ELET programme targets Primary Schools, thus enabling a strong foundation for learner achievement. We believe that the partnership with ELET will continue to have positive impact and improve the results of the Phumelela CMC and the Umlazi District.

We are honoured to be associated with ELET and look forward to their continued support. It is our vision that our partnership will eventually ensure that all our Primary Schools are fully stocked with library books or mobile libraries in those schools that do not have libraries.
