**TO WHOM IT MAY CONCERN**

**REFERENCE LETTER FOR ENVIRONMENT AND LANGUAGE EDUCATION TRUST (Elet)**

This is to confirm that Mangosuthu University of Technology (MUT), through its department of Marketing and Communications has established a positive partnership with Environment and Language Education Trust (Elet) towards the empowerment of schools in Umlazi Township.

Our partnership is endorsed by the office of the district director as well as the management committee of Umlazi District. Through the partnership we have empowered a number of schools through teacher workshops and donations of language and literacy resources. The latest project which we hosted in March 2018 supported 48 English First Additional Language educators through a workshop that was facilitated by ELET and donation of English resources for 30 high schools.

The work we embark on with Umlazi schools cuts across both primary and high schools. We are proud of our association with these schools that have made an impact and are producing amazing results working under extreme financial difficulty.

Through the years we have seen good results and are hopeful that with your new support we will be able to create a strong foundation for primary schools in Umlazi Township.

We are honoured to have had the association with Elet and we look forward to working on more projects with them. Please feel free to contact me for more information.

With kind regards
